

The GrooveFellas

The band was born in 2013 from the idea of Giulio Larovere and Enrico Meloni (respectively singer and guitarist of GL.EM Acoustic Duo) with the aim of offering an engaging and high quality live for private events, receptions, weddings, conventions and corporate events. The lineup, with drums, bass, guitar, keyboard and lead singer, can be extended with the addition, for example, of a female voice or a saxophone.

Refined and sophisticated arrangements, enhanced by the choirs performed by the members of the band, are one of the peculiar features of GrooveFellas, which also use the so-called "American" way of playing, i.e. without determining the structure of the song but letting the energy of the moment and the interaction with the public determine the performance and, consequently, the course of the event itself. All this creates an energy exchange between the band and the audience that spontaneously becomes part of the performance

The repertoire of GrooveFellas is huge but still adaptable to the needs of every kind of event. The genres performed are pop, rock, R & B, soul-funk, disco and revival.
